## OBJECTIVE

Highly motivated and dedicated individual with a strong inner drive to continuously learn, grow, and acquire new skills. Eager to collaborate within a team environment, leveraging my passion for personal and professional development to contribute effectively to achieving organizational goals. Committed to delivering excellence through unwavering dedication and a strong work ethic.

## SKILLS

- Programming Languages : Java, Dart
- Java Technologies : JDBC, Servlets, JSP
- Scripting Languages : Java Script
- Web & Application Servers : Apache Tomcat 9.0, Maven
- IDE's : IntelliJ, VS code,
- SQLyog, Sublime Text
- Database : MySQL
- Operating Systems : Windows
- Markup languages : HTML, XML
- Frame Works : Spring Boot, React JS, Flutter

## LANGUAGE

- English
- Hindi
- Malayalam
- Tamil
- Kanada

## EXPERIENCE

### Sep 2 2020 - jun 14 2021 Diviso

Associative Software Developer

Created web Application like Contact app in Jsp Servlet and Run through Tomcat and War File was created through Maven. Preparation of user stories for the scrum team based on the inputs gathered from product owner and adding it in Jira and finished all the project in given time where, as presented it to the Scrum team too. Have experience in project management tool Jira and created all the projects through proper patterns like class diagrams and storyboards. Creating web application and its security ,In Tomcat and Maven Worked in the project of Phone Theme App with the help of Visual Studio, for the purpose of portfolio

### nov 14 2022 - Aug 12 2023 Besant Technologies

Java full stack development Trainee

I gained proficiency in Java, an object-oriented programming language widely used for web development. I learned about data structures, control flow, function and OOPS concepts. The course introduced me to popular Java Spring boot framework. I learned to leverage the power of the framework to rapidly develop robust and scalable web applications I developed strong understanding of front-end and back-end technologies and Relational databases such as MySQL.

## EDUCATION

2019

### Mysore university

BSc computer science, physics, Mathematics

2016

### puliyamparamb HSS

## PROJECTS

### Snake and Ladder Game Implementation (Java)

I designed and implemented a dynamic Snake and Ladder game website using Java. Engineered game logic, user interactions, and visual elements to create an engaging experience. Utilized Java's object-oriented principles to ensure efficient code structure. Resulted in a responsive and enjoyable web-based gaming platform.

### Hotel Menu and Billing System (java)

Created and implemented Java-based system for hotel menu and billing. Developed user-friendly interface for menu selection and automated billing processes, optimizing efficiency. Utilized object-oriented programming and database management to ensure accurate order tracking and seamless transactions.

### Contact Management Web Application (Java, Springboot, Maven, Tomcat)

Managed the development of a Java-based contact management website, overseeing design, implementation, and functionality. Led a team to ensure seamless user experience, efficient data storage, and responsive design. Applied strong problem-solving skills to optimize performance and enhance user interactions.

### Pikkaha CRM (Customer Relationship Management)

Developed and maintained a dynamic CRM website using Java, facilitating efficient customer relationship management. Implemented features like user authentication, data storage, and seamless communication, resulting in enhanced client interactions. Collaborated with a cross-functional team to ensure optimal performance and user satisfaction.

### Portfolio Creation (React, Tailwind, Javascript)

Created dynamic and responsive portfolios using React, JavaScript, and Tailwind CSS. Seamlessly combined technical proficiency with design sensibilities to deliver engaging user experiences. Leveraged modern web technologies to showcase projects effectively and enhance visual appeal.

### Language Translator(React)

Experienced language translator adept at bridging communication gaps using React. Proficient in translating and localizing content for seamless cross-cultural understanding. Skilled in React development to create intuitive user interfaces. Strong attention to detail and linguistic accuracy.

**E-commerce Website (React)**

Developed dynamic E-commerce website using React, optimizing user experience and enhancing functionality. Implemented responsive design, product catalog, cart management, and secure payment integration. Collaborated with team to ensure seamless front-end performance, contributing to a user-friendly online shopping platform.
